2024 SCHOLARSHIP OPPORTUNITY

LAST YEAR'S RECIPIENTS

My name is Preston Key. I am currently a senior at Auburn University, majoring in civil and environmental engineering. My time at Auburn has been amazing, and I would not trade it for anything. I have had the amazing opportunity to work three full semesters as a co-op student at AMERICAN Cast Iron Pipe Company (ACIPCO) in Birmingham, AL, as an environmental engineer. ACIPCO has exposed me to many aspects of a professional engineering environment while also giving me full exposure to the many responsibilities of an environmental engineer. As graduation approaches, I plan to continue growing my relationship with ACIPCO and finishing out strong in my classes!

My name is Baeli Allison Porter, and I am attending the University of Alabama at Birmingham. I am currently a senior and will graduate after the end of spring 2024 semester. I was previously a co-op with Southern Company for four semesters. I got an amazing opportunity to sign a full time offer with Southern Company and plan to work in the sitework design group. After I get a total of four years of experience under a licensed PE, I plan to take the PE exam and become a licensed professional engineer.

[APPLY NOW!](#)

The Alabama Chapter of the Air and Waste Management Association (A&WMA) is happy to announce that it will be awarding up to two \$1,000 Environmental Scholarships to students attending an Alabama college or university.

Eligible candidates should be pursuing a scientific degree in an environmentally related field.
